VCI GUN SOCK - ONE PIECE

- Browning's VCI (Vapor Corrosion Inhibitor) Gun Sock seals out moisture.
- The VCI treatment of the fabric penetrates into small areas and crevices of your firearm to drive out moisture. Even areas difficult for oil to reach.
- Since it is a sock with full coverage, it surrounds your firearm to protect every part from corrosion and rust and from inadvertent light touches against other guns or when moving your gun in and out of your safe.
- Of course, the VCI is especially effective when used in a gun safe or display cabinet.
- The drawstring closure helps trap in the VCI for maximum effectiveness.
- VCIs are sometimes also referred to as Volatile Corrosion Inhibitors. They are proven as one of the most effective ways to inhibit corrosion for sensitive metal components -- with superior results for firearms. Learn more at Wikipedia: https://en.wikipedia.org/wiki/Volatile_corr
